Got Butchery's Goat.

A charming young lady entered the butcher shop the other morning and asked for one 29 pounds of meat. The lady was very particular to have it the exact weight. After fussing around for awhile the Big Fellow finally got a hunk to suit, told her the price, and was about to wrap it up, when the latter remarked she didn't wish to purchase it—her Dr. in the City had put her on a diet last winter, she had lost 29 lbs. in weight, and she was merely curious to see how much that amount looked like in real meat.

Butchery's remarks are not recorded.

The Walther League Concert

On Friday last, as witnessed by the local spectator:

In spite of the fact that the evening was of that nature on which men want to join the pipe and house slipper brigade, their better portions would gladly while the hours away with dreams of what their husbands might have been, and the offspring delve in some fascinating novel of mystery and romance, the floor manager reported an overcrowded place of amusement.

Young and old crowded into the doorway, fishing in their pockets, or purses for the necessary 13c or 25c that would entitle them to a seat.

After sitting patiently thru the first half of the performance, bravely fighting off demon sleep during the late portion of the program and finally wishing all the ill luck with which Pluto ever threatened man onto the program committee, he ventured forth from the hall unseen.

The next day, however, this same member of the audience at the affair the evening before could be seen conversing with some of his friends about the able manner in which "Going to the Poorhouse," or "Kleider machen Leute," or "The Germ Hunters" was played, or perhaps how well the local choir sang. Then he could be heard to express a few wishes that the W. L. would soon make another such attempt whereupon he would order a few tickets for Concordia College concert and depart.—Contributed.

LOCAL NEWS.

Mr and Mrs D. W. Pattie, Rocky Mountain House, gave Stony a visit on Saturday.

Mr and Mrs. A. E. Michael motored to the City on Monday.

Mr Stockwell was visiting on Saturday with Mr Kibblewhite.

The arrival of Banker Cleary from Innisfree has been postponed.

Mrs Thomas Graden left last week on a hurried visit to Chicago, where her sister lies seriously ill.

J. D. Nicholson, acting commissioner, was a visitor at the local Police Detachment on Sunday.

Mr Poulous, of Graminia, was a business visitor in Stony Monday.

The local board of health has ordained that Saturday next, May 15, be Clean-Up Day.

The assessment roll of the Town of Stony Plain is now open for inspection at the secretary's office.

Mike Zucht is in the real estate business again—having just shipped four cars of top soil to Jasper Park.

The Girls' Club are putting on a silver tea the afternoon of Saturday May 29.

Rev H J Boettcher, so well and favorably known in Stony Plain and district, has been given a call to the pastorate of Grace English Lutheran Church at 93d and 112th St. Edmonton. Mr Boettcher is at present engaged as principal at St. Matthew's School No. 2, located in the town of Stony Plain.

A fairly good crowd of footballers were present Saturday evening last at the meeting called to organise a club for the coming season. Otto Hoffman was elected captain, and the office of secretary was filled temporarily. It was decided to issue membership tickets, to be sold to the club's supporters. Arrangements were made to hold a dance on Saturday Evg., May 29, in Wudel's Hall. The secretary was instructed to make an effort to arrange matches with nearby clubs, and it is possible the team may make visits to Edmonton, to try conclusions with City teams. Practices will be held on two evenings a week, Tuesday being one of the evenings decided on. Much enthusiasm was shown at the meeting, and an effort will be made to make this the banner year for football in this district.

A meeting of the athletic association will be held on Saturday, when a very interesting report from the finance committee will be presented, showing the splendid progress the association has made during the past year. It is predicted the old officers will be re-elected.

FOR SALE OF 10 Tent—104 football suits. Apply box 38.

"is good tea" TEA

Perhaps you use good tea. We think Red Rose extra good.

The British Strike

The outstanding event of the week in which this article is written is the great strike in Great Britain affecting nearly five million workers and crippling all the public services of the country. This great national strike also serves to once again demonstrate how closely the interests and welfare of one country are bound up with other countries. The day the strike went into effect the price of wheat in Canada and the United States made a considerable drop, while values of many stocks fell on the New York and other markets. No longer does one nation live unto itself alone, and even its purely domestic troubles have an international and world effect.

The unsettled condition of the mining industry in Great Britain lies at the bottom of the strike, just as it has been the cause of more or less trouble for many years past, and until a permanent and satisfactory solution of the coal mining problem has been found it would appear that trouble must be expected. In the case of the present strike, precipitated by the miners' refusal to accept a reduction in wages and a lengthening in the hours of labor, which the mine owners insist is necessary if the industry itself is to survive, railway employees, pitmen, dock and transport workers, the building trades, iron and steel workers, and others organized under the Trades Union Congress, ceased work in sympathy with and to enforce the miners' demands.

It is difficult for the people in this country to fully grasp and understand the underlying causes of the discontent and financial difficulties existing in the British coal mining industry. Undoubtedly the war has had something to do with it, because there is not the same world-wide demand for British coal as existed prior to 1914, and furthermore, the depression in British industry owing to lack of orders from foreign markets following the war has likewise had its effect.

Competent observers from other countries find another cause for the trouble—a basic one. They insist that the whole system of coal mining in the British Isles requires to be modernized, and that until this is done the business cannot be profitable to the mine owners, and consequently satisfactory wages and working conditions cannot be provided for the miners. To effect the changes necessary will, call for the expenditure of enormous capital sums, and, for a time at least, a decrease in the number of men for whom employment can be found. This latter is undoubtedly the chief difficulty.

In other words, it is held that the present method of pick and shovel mining must be replaced by the utilization of machinery in the mines for purposes of cutting the coal. This would mean fewer men employed, but as large or larger output of coal at a considerably less cost per ton, thereby assisting all British industry and enabling British coal to again compete successfully in the market of the world. If these experts are right, then it would appear that the British coal industry and British miners must pass through the same experience as did the cotton industry following the advent of machinery, which caused a terrific upheaval at the time and much distress, but ultimately gave that industry its great supremacy.

Evidence is not lacking that the same process of modernization is necessary in other lines of British activity, the building trades for example. A group of United States experts connected with the real estate business recently visited London, and they report that it takes about 100 per cent. longer to put up a given structure in London than it would in New York, and, despite the much higher wages paid artisans in New York, the cost of the building is just as great in London as in New York. The reason is found in slow moving machines and out-of-date appliances. Two examples of the latter may be mentioned.

A huge modern steel structure is being erected in London on the site of Devonshire House in Regent Street. The hoisting of the big steel beams was being carried out by a group of men turning handles on an old-fashioned drum, with the result that the beams moved upward slowly by inches. On this side of the water a dock engineer would do the hoisting in a fraction of the time. On the site of another structure close by, pick and shovel men were excavating for a foundation. In Canada and the United States a steam shovel would be on the job, and do it in short order and at much less cost.

British workmen and their Union leaders have yet apparently to learn the lesson that the introduction of the most modern methods are essential to their own progress and welfare. Lowered costs of output and production is necessary if British industry is to compete with the world, and such a reduction in costs would enormously increase the volume of production, thus providing, not less employment because of the use of machinery, but more employment, better wages and shorter hours because of the greater demand created through lowered costs and greater expedition in the completion of work.

There was not one Turkish woman among the industrial workers of Constantinople four years ago, but now there are 20,000.

You aren't old until you have forgotten how good bread and butter and brown sugar tasted between meals.

CHILDREN CRY FOR FLETCHER'S CASTORIA

MOTHER:—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

Farm Lands in Demand

A Revival of Buying of Farm Lands Has Set In

With farm land values just at the upturn and conditions improving, this season has brought a revival of buying in farm lands equal to that of 1913, said P. H. Harman, president of the Winnipeg Real Estate Exchange, recently.

"One company alone has been averaging sales of 20,000 acres of farm lands a month since last October," Mr. Harman said. "In each case the lands, mostly wild land for pasture and stock raising purposes, has been sold to bona fide farmers and not to speculators or investors. Substantial initial payments have been made and the buyers are meeting subsequent payments promptly. The biggest demand for land recently is in Saskatchewan and Southern Alberta."

"DIAMOND DYES"

COLOR THINGS NEW

Just Dip to Tint or Boil to Dye

Each 15-cent package contains direct color dyes to tint any woman can tint soft, delicate shades of color. Permanent colors in lingerie, silks, ribbons, skirts, sweaters, stockings, sweaters, draperies, coverings, hangings—everything!

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Plotted by Youngest Aviator

Indianapolis Woman 104 Years Old Established New Record

Mrs. Mary Huffman, 104 years old, Indianapolis, set what was believed by local flying officials to be a world's record for the age of persons riding in an aeroplane when she made a 15 minutes flight. She was piloted by Frank Parker, of Anderson, 15 years old, the world's youngest aviator. In the plane with Mrs. Huffman was her five-year-old great grandson, Carrol Davies.

Miller's Worm Powders can do no injury to the most delicate child. Any child, or infant in the state of adolescence, who is infested with worms can take this preparation without a qualm of the stomach, and will find in it a sure relief and a full protection from these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

Angle For Plunder

The Chinese thief uses a hook and line fastened to the end of a long bamboo to angle through upper windows for anything the "hook" can catch. It is not unusual for the occupant of a hotel bedroom to find, on waking, that all his clothes have gone, and with them, of course, anything he chanced to have left in his pockets overnight.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother gives Worm Exterminator will clear the stomach and intestines and restore healthfulness.

Has Patented Atom Engine

Idea May Develop into Most Dramatic Achievement of Century

A Dutchman has recently received a patent for running an engine on power obtained from the atom. He has discovered that if mineral sands containing titanium are heated to a temperature of 1,700 degrees centigrade the atoms disintegrate, and an enormous amount of heat is generated. This heat is heated in a small electric furnace, and the heat caused by the sudden breaking up of the atom is forced by a pump through tubes that heat the water in a boiler, and supply the power to drive an engine or turbine. This patent has passed through the patent office almost unnoticed, but it is actually the first step toward the realization of the power from the atom which all the world is waiting for. It may easily develop into the most dramatic achievement of the century.

The Hudson Bay Route

Dominion of Canada Pledged to Carry Out Work to Completion

The fact is, of course, that every government in Canada for nearly forty years has advocated and furthered the Hudson Bay route, and four successive prime ministers, two of them Liberals and two of them Conservatives, have, while in office, seen great sums expended on the enterprise.

The railway has, at great expense, been carried to within seventy or eighty miles of Hudson Bay and awaits completion. It is to be completed, as it should be, and as public men of each and all parties assured the people of the west it would be. The talk in West Middlesex and elsewhere in Ontario and Quebec about the completion of this enterprise being a steal, a waste, a bribe, is quite dishonest.

The acoustics of the Dominion are very good, much better than many partisans suppose. What is said in the west and is said in the east, politically, is overheard all across the Dominion with a distinctness that leaves nothing to be desired. The improved hearing of the country, when every-thing is said, it will make for straighter talk in politics.—Toronto Star.

Pilot Makes New Record

Flier Heavy Plane London to Paris in 25 Minutes

Some idea of the astonishing progress in air travel can be had from the record recently made by Captain Mackintosh, an Imperial Airways pilot. The officer flew a light fifteen-seater, three-engined Handley-Page air liner from London to Paris in 25 minutes. The plane carried a full load of passengers and goods, and, freighted, weighed six tons.

The average speed of the flight of 250 miles was 64 miles an hour, a new record for a big passenger plane of this size.

The actual speed record between London and Paris is held by a four-seater Napier D. H. express plane, which made the flight in 37 minutes; which means that Captain Mackintosh with his giant passenger liner lacked only three minutes of the record set by the light "speed" machine.

Britain Would Aid U. S.

The British Government has a plan for soothing the United States to tighten its check over rum running. The plan does not go as far as a new treaty, but according to official circles will take the form of permission for United States revenue cutters to visit the Bahamas and co-operate with British ships in carrying out searches for contraband liquor.

An Oil that is Famous—Though Canada was not the birthplace of Dr. Thomas' Ecodic Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far enough to attest its excellence, for in all these countries it is on sale and in demand.

After travelling around the world in a smock, W. W. Grantham, a prominent English lawyer, arrived back in London recently, still in the same attire, which he considers an ideal garment for men.

Sick bodies made strong

"Disagreeable, head-aches and constant nervous tension were me down to 115 lbs. Tanlac-achieved them and made me eat, sleep and enjoy life normally. Will always keep Tanlac in my medicine chest." Mrs. Geo. Bell, 317 Grey St., London, Ont.

After a spell of Grippe or flu, when your system is all run down and your legs are so weak they can hardly hold up your body, start right in taking Tanlac.

It's wonderful how soon you really do improve! Tanlac salts right in and puts the system in fighting trim. It cleans the blood, revitalizes the digestive organs, gives you an appetite for solid food and makes you feel like a new person.

Nothing will turn the trick quite as fast as Tanlac, made after the famous Tanlac formula from roots, herbs and herbs. Buy a bottle today and get started back to full strength and vigor. Take Tanlac Vegetable Pills for constipation.

Bishop Will Use Aeroplane

Able To Reach Points in Haiti Otherwise Inaccessible

Misology enterprise is shown in the announcement that Bishop Harry Roberts Carson, of the Protestant Episcopal diocese of Haiti, is to fly from parish to parish in fulfilling his duties, naval authorities having issued orders which permit the bishop to make use of naval aeroplanes in visiting parts of the island otherwise inaccessible.

Suffered From Kidney Troubles For Years

Nova Scotia Man Affirms Dodd's Kidney Pills a Truly Wonderful Medicine

Mr. Wm. L. Whitman Suffered From Kidney Trouble for Years and Found Relief in Dodd's Kidney Pills.

Beaver Harbour, N.S.—(Special).—"My trouble started from a cold and strain. I have suffered for years from kidney trouble. Rheumatism, Bright's Disease and Lumbago being some of my chief troubles. My head used to ache and my appetite was fitful. I have taken Dodd's Kidney Pills and found them very satisfactory. I think they are truly a wonderful medicine. Really they are not used half enough by a good many people."

This statement comes from Mr. W. L. Whitman, a well known resident of this place. Bright's Disease is one of the most serious forms of kidney disease. It can be successfully treated with Dodd's Kidney Pills. But the better the kidneys are, the less the chances of Bright's Disease by using Dodd's Kidney Pills when the kidneys first get out of order.

The telephone cable recently completed from New York to Vancouver, B. C., while it is well under 981 miles—the longest in the world. It cost \$25,000,000.

The Eskimo has never been a long-lived race. The average lifetime is 50 years.

Charles Darwin, in his boyhood, was accounted a dunce by his teachers.

Genuine ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists. Aspirin is the trade name registered in Canada of Salicylic Acid (Acetyl Salicylic Acid). "A" Bayer, Manufacturer of Monoclonal and other pharmaceuticals, to avoid imitations, to every prescription, to every bottle of Bayer Company will be stamped with their special trade mark, the "Bayer Cross".

Proposal Is Made To Send A Canadian Exhibition Train To Advertise Canada In Britain

Senator Charles Philippe Desautels, one of the intellectual and oratorical elite of Ottawa's upper house, who wears in his buttonhole the red rose of the French Legion of Honor, in a flying visit to Toronto lost no time in putting his case before the board of trade. "I have come," said he, "to ask you to help me to send this year a Canadian exhibition train to Great Britain. Nothing as we proved in France, is better calculated to awaken curiosity, the most powerful of human interests. The man who knows how to harness human interest is master of the world."

That train, or rather motor caravan, would harness electric curiosity as the hydro-electric harnesses Niagara, and would flash the magic word "Canada" unforgotten by all England as on a gigantic billboard.

"I am confident," said he, "that in one year it will increase our sales of Canadian goods to Great Britain by 100 million dollars."

To make the Englishman visualize Canada and its varied resources he would put in some central spot in England an immense diorama of Canada, 400 feet long if necessary.

"I would show," said he, "the Atlantic and Pacific coasts, with the characteristic topography and activity of each province, the commerce on the St. Lawrence and great lakes, the gold fields of Ontario and Quebec, the wide prairies full of golden waving grain, the mountains, the forests, orchards and fisheries of B.C. We could even put in the Arctic Ocean and show the so-called barren lands covered with herds of reindeer or caribou."

"Then I would have a rheostat to flash on golden lights to show the location of every gold mine in Canada, and blue lights to show every coal mine, and so on with our pulp mills and great industrial areas. Words are soon forgotten, but pictures never fade from the memory. Once an Englishman saw Canada, say a map he could never forget Canada for he would really have seen it. Such a large scale appeal to human curiosity would be worth 1,000 English speeches."

Helps To Increase Income

Farmers Are Realizing Value of Keeping Accurate Accounts

The problem of increasing his income is one which every man continually faces, but with the steady trend of population toward urban centres with consequent rise in gross income to the individual, the problem may now be said to affect the farmer in a peculiar way. One of the means by which the farmer may enlarge his earning power was recently explained by J. B. Donald, farm management demonstrator at the Wisconsin College of Agriculture. He is of the opinion that the keeping of accurate farm accounts will greatly aid the farmer in enlarging his returns.

"A number of farmers are keeping farm accounts," he said, "and of course, know their value. A much larger number are not keeping such accounts or any systematic record of their farm business and so do not appreciate the value of accounting records."

"Every progressive farmer who is trying to improve his income will welcome any method which will show him briefly and with little trouble his actual net income for his own line, after deducting all expenses including family labor. If he feels that a farm account will tell him too much bitter truth and would rather not know how much he is losing, he may be making a mistake. Many farmers have been encouraged to find that they were making something when they thought they were losing."

Made Hit Anyway

Jeeks (after an absence from home) and so on this a burglar while alone and unprotected. What a brave little woman you are! But what because of him?

Mrs. Jeeks: Oh, the other burglar carried him off!

Jeeks: Which other burglar?

Mrs. Jeeks: The one I aimed at!

Many a man who claims to be discreet is only a coward.

Good Horses In Demand

Not Rival of Motor Car But Each Has Its Place

The farmer who owns a really good brood mare is to be congratulated. No matter how many tractors may find their way to the country side, the horse will still hold his own. Just now, really good horses are in active demand and the demand is likely to be active for some time to come. One notices that the big firms in the cities still use the horse for deliveries under a distance of ten miles. Last winter proved the value of the horse as an all year conveyer. The horse and the motor car are not rivals. Each is valuable in its own place and loss comes when the one is required to do the work of the other.

Trade With Japan

Large Quantities of Agricultural Products Shipped Through Vancouver

Canada's exports to Japan, which have been steadily increasing in late years, reached their high point in 1925, according to H. A. Craig, deputy minister of agriculture for Alberta, who recently returned from a trip to that country, in which he investigated the possibilities of trade from this province. He reports that 11,500,000 bushels of grain, 680,591 tons of flour, 720 tons of butter, 125 tons of cheese, 1,346 tons of beef and five tons of poultry, were shipped through Vancouver to Japan last year.

Vancouver's New Flour Mill

Expansion in Export Business Planned by Big Milling Company

Vancouver is to have a large new \$1,500,000 flour mill, capable of producing 3,000 barrels of flour a day, according to information reaching the city of Winnipeg. The Maple Leaf Milling Company, taking over the assets of the Alberta Pacific Elevator Company, is planning expansion in the export milling business and will take advantage of the economy Vancouver offers in handling wheat for export.

Something To Memorize

Figures Showing Canada's Area Should Change Idea of Americans

The Christian Science Monitor's "All-Canada" number contained many fine articles and a great deal of information about Canada, but the one line that should be read and memorized by several million Americans, who hold the idea that Canada is about the size of the island of Montreal, appeared on the front page, under the heading: "Salient Facts About Canada," and was as follows:

Area, 3,759,665 square miles; slightly larger than the United States.

The man who pays as he goes seldom goes fast enough to overheat himself.

Always tell the truth and you will never have to fix up excuses.

Showing How Profitable To The Country Is Development Of Our Natural Resources

Annual Flowers For All Sections

The Twelve Best Annuals For Outside Sowing

If everybody were asked how many varieties there were of sweet peas, how many people would be able to say, and yet in a bulletin on "Annual Flowers," prepared by Miss Isabella Preston, specialist in ornamental horticulture of the Dominion experimental farms, the names of upwards of 400 varieties that have been tested at Ottawa are given. In all a list of more than two thousand varieties of flowers that have been tested at the Ottawa farm is supplied and regarding which everybody interested and requiring further information is invited to apply to the Horticultural Division, Central Experimental Farm, Ottawa.

The bulletin, which can be had free on application to the publications branch at the capital is one that commands itself either to the market and the domestic gardener, the flower grower on a large or a small scale. Besides giving valuable hints on cultivation it supplies an extensive list with description of the best species and varieties to grow, names the twelve annuals best suited to each and practically every section of Canada, the twelve best annuals for outside sowing, annuals for special purposes, and the list previously referred to of annuals tested at the Ottawa farm.

An Agricultural Family

Six Sons of Scotchmen Are Engaged In Farming

William Maller, who has died in Strirling at the age of 79, was a member of an agricultural family identified for many years with the Strirling and Doune districts, and was among the first of the band of Scottish farmers to take up holdings in England. All his six sons are engaged in farming—three in Canada, two in England, and the sixth at the family holding, Couphly. Blair Drummond, Doune. Three daughters are married to farmers.

Easy Way To Raise Strawberries

Experiment of California Man Was Highly Successful

Strawberries enough to supply a family for a season can be grown in a barrel. This has been demonstrated by a Californian, Delavan D. Johnson, says Popular Science Monthly. A barrel in which holes had been bored is filled with dirt. In each of the holes a vine is set, and under each vine is built a screen platform to support it as it grows and bears fruit. As many as sixty vines can be grown in one barrel.

The various provincial governments spend about three million dollars annually on their forests and receive in return from the forest industries about twelve and one-half millions, similarly with mining, the expenditures are less than 15 million dollars and the revenues 25 millions. On game and fisheries, less than \$700,000 is spent and nearly \$1,700,000 revenue is obtained. Under these three headings alone we find a direct revenue of 15½ millions, as opposed by maintenance charges by the governments in question of only 4 millions.

In this connection no account is taken of the huge payrolls in the three industries. No record is made of the dependent industries, the supplies purchased, the transportation furnished to the railways or to the profits that are made for the benefit of shareholders in every part of the Dominion.

It is thus apparent, says the natural resources intelligence service of the department of the interior, how profitable to the country is the development of natural resources, and how essential that the greatest care and supervision should be maintained over their exploitation. Mineral resources may be forever wasted, by using up the high-grade ores and neglecting the lower grade. This is known as "picking the eyes out of a mine." Forest reserves may be depleted in a generation through fire, insect ravages and inefficient conservation. Fisheries, with care, might be maintained in perpetuity, may be exhausted through excessive and unrestricted prey upon given areas and specific species. The gradual depletion of the magnificent sturgeon and of the sperm whale are but two examples of this.

The public conscience is gradually becoming awakened however. Responsible officials are pointing the way to more business-like regulations and their efficient enforcement. This inexhaustible portion of our natural heritage may yet be preserved for generations yet unborn, and at that, with no appreciable sacrifice of immediate needs or legitimate gain.

Shipping Trees For France

Busy Season At Dominion Forestry Farms Has Started

The staff of the Dominion forestry farm at Sutherland are as busy as bees in the proverbial hive, shipping baby trees destined to become pleasant groves of shelter in nearly 3,000 places—as far east as Portage la Proulx and as far north as Peace River and as far south as Shellbrook.

This is the start of the busy season for James McLean, superintendent of Northern Saskatchewan's forest factory, and Ontario now on what with shipping and planting that he will have scant time for personal occupations.

The demand for this free service afforded by the Dominion Government fluctuates with the years, according to farming conditions and settlers' movements. Up to the fall of 1923 the Sutherland station had shipped, since its inception, over 17,000,000 trees. For 1924 the total was over 2,000,000, while in 1925 it was about the same number. This year the striking number of 3,135,000 is to be shipped.

Maple, ash, and caragana are grown from seed, willows and poplars from cuttings. This year, the Sutherland forestry farm has 15 acres under first-year caragana, 12 under Manitoba maple, 14 under ash and 10 of two-year-old caragana, the balance being more or less in proportion.

A maple tree, incidentally will attain a growth of 14 inches in its first year, from seed rising to a height of three feet in the second year and reaching 11 feet by the end of 10 years.

New Fireproof Building Material

The French have a new fireproof building material made of straw. The straw is pressed into rectangular panels nine feet long by six wide and two inches thick, bound together by lagging wires about 12 inches apart. The heavy pressure under which the panels are constructed as well as the mineral content of the straw account for its being fireproof.

WESTERN CANADA'S FIRST HOME-MADE ENGINE

Another railroad milestone of Western Canada was passed on April 20, when the first engine ever constructed in this part of the Dominion was turned out of the Canadian National Railways Transcona Shops at Winnipeg, where it was built. Engine 2747 shown above was constructed entirely in the local shops, the work being done in addition to the regular output of repairs to other engines. After

the various parts were made, the frames for the locomotive were laid down on March 11 and construction was completed on April 19th, a total of 27 working days, the first run being made to Winnipeg on the following day.

Number 2747 is classed as a 35 per cent. engine, is capable of main and branch line freight hauling and has sufficient speed to run the Transcontinental. The weight of the locomotive

and tender complete is 193 tons. After trial runs, it will be used on main line time freight trains on the Alberta district of the Canadian National, where the best use can be made of this class of locomotive and where the fuel saving device with which it is equipped will give the most economical results. Number 2747 which is now in course of construction at Transcona will be ready for service in Alberta in May.

WORLD HAPPENINGS BRIEFLY TOLD

During last year 1,152 drunken motorists were deprived of their licenses in the state of New Jersey.

Sir Sirion Branner, British civil aviation head, says he plans a landing at Galloway for trans-Atlantic aeroplanes.

New Zealand's export of apples last year reached the record total of 600,000 cases, with apple left for home market.

Coffins containing two mummified horses, the first ever discovered in Egypt, have been found in the pyramids of Sakkarah, south of Cairo.

Geological surveys in British Columbia have cost the federal treasury \$1,171,410 since 1871. In the last four fiscal years it has averaged from \$55,000 to \$60,000.

Aerial traffic between the United States and Canada may soon be directed through "air gates" designated by mutual agreement of the two governments.

The owners of black opals are extremely lucky people at present, contrary to the accepted superstition, for the value of these gems is rising as they become more and more scarce. The mines in Australia which produce them are giving out and no new sources have been discovered.

Pains In Back Subdued Sore Chest Relieved

A Nova Scotian Tells How She Overcame Her Troubles With

NERVILINE

"I consider Nerviline the best remedy for a cold, sore throat or tightness across the chest," writes Miss Lucy Mosher from Windsor, N.S. "For many years our home has never been without Nerviline. I had a cold on my chest that fourteen remedies couldn't break up. I rubbed on Nerviline three times a day, used Nerviline as a gargle and was completely restored." It's because Nerviline is so powerful, so penetrating, so sure to relieve congestion, that it is used in most homes, for the prevention and relief of a hundred minor ills. Get a 25c. bottle to-day.

As we understand it, a dangerous reduction in the tax levy is one suggested by the minority.

One sign of greatness is to have a signature nobly can read.

HEADACHE!

Bathe the head with Minard's Liniment in water. Also heat and inhale Minard's.

SUNDAY SCHOOL LESSON

MAY 16

ABRAM AND THE STRANGERS

Golden Text: All the nations of the earth shall be blessed in Him. Genesis 12:3.

Lesson: Genesis 12:3-8, 16-19.

Devotional Reading: Psalm 135.

Explanations and Comments
Abraham Entertains Angels Unaware, verses 1-8.—"And Jehovah appeared unto Abraham" as he sat at his tent entrance at noon in Hebron; the first verse says, and the second speaks of "three men" appearing suddenly on the scene. Because of verses twenty-two and thirty-three, we must understand that the story includes among the three men, Jehovah himself. "There are passages in the Bible in which manifestations of God are described which seem to imply that he was confined within the limitations of space, or that the human form really was proper to him. He is said to have walked in the garden in the cool of the day; to have come down to see the town which men did build; to have been one of three men who appeared to Abraham, and to have eaten that which was set before him. Under these passages there lies not only a vivid conception of his personality, but a vivid conception of his profound and more strictly redemptive truth, namely, that he reveals himself and enters into the closest friendship with men" (Dr. A. H. Davidson).

A Softly-Flaring Yet Slender Silhouette.

The styling of printed silk on tailored lines is a venture in its expression that is meeting with the approval of the modish woman. Cut with front fastening from neck to hem in an unbroken line, this clever frock presents a slenderizing silhouette altogether flattering to the woman of larger proportions. The upper part of the frock molds the figure to the hip-line, where it springs into a graceful flare at the sides and back, the front being perfectly flat. A long the collar of contrasting color material is wrapped about the throat, but the collar is adjustable and may be worn open with the ties hanging in front. The long satin sleeves are trimmed with tailored cuffs matching the material of the pointed patch pocket and the collar. No. 1333 is in sizes 36, 40, 42, 44, 46 and 48 inches bust. Size 40 bust requires 4 yards 29-inch figure and 1/2 yard plain material. Price 20 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every housewife. Price of the book 10 cents the copy.

New Heat Resisting Metal

Tantalum, a new metal for use in electrical work where great resistance to heat and acids is required, is said to last 1,600 times longer than platinum and is one-twentieth as cheap.

Use Minard's Liniment in the stable

Proves Mother Is

Your Closest Friend

Jersey City, Mr. J. Pauli writes: "I awakened each morning with an unpleasant taste and was often reminded by my Mother that my breath was disagreeable. I tried perfumed tablets, mouth washes and other camouflage which gave temporary relief. After consulting my dentist and finding my teeth in good condition, a friend suggested my trouble was constipation. After taking a few doses of Carter's Little Liver Pills my stomach and bowels were relieved, foul and impure gases eliminated."

Druggists, 25 & 75c red packages.

Was Oldest Mason In West

Andrew E. Rea, believed to have been the oldest Mason in Western Canada, is dead. He was 80 years old and had lived in the district for 40 years. Mr. Rea, who was born in Kingston, Ont., was a Master Mason for 49 years.

COMFORT DEPENDS ON GOOD DIGESTION

Weak Stomachs Can Be Made Strong Through the Use of Dr. Williams' Pink Pills

The sufferer from indigestion is greatly to be pitied. This trouble assumes various forms such as pain after eating, no on the stomach, stomach and often vomiting after meals. The sufferer cannot get relief by cutting his food to a starvation basis. That only still further weakens. What is needed is better digestion, not a poorer diet. And the way to get a better digestion is to so enrich the blood that the stomach will do the work nature intended. As a tonic for building up the blood nothing else can equal Dr. Williams' Pink Pills. As this new blood courses through the veins strength and tone is given the stomach and the pangs of indigestion disappear. Not only this, the whole system is strengthened and new life and vim comes to the former sufferer. The value of Dr. Williams' Pink Pills in cases of this kind is proved by the experience of Mr. E. G. Mulcuff, Port Malcolm, N.S., who says: "For several years I was a great sufferer from indigestion. I could not eat meat or potatoes, and often could not retain the food I did eat. Only those who have been afflicted with this trouble can speak of the relief that Dr. Williams' Pink Pills brought me. I took a lot of doctors' medicine, but it did not give me more than temporary relief. I also took other remedies recommended with no better results. Then I read in a newspaper the case of a woman whose symptoms were like my own, who found new health through Dr. Williams' Pink Pills. I at once got a supply of these pills and had not taken them very long when I began to feel relief. This encouraged I continued the use of the pills, and I can now say what they did for me by saying that they made me feel like a new man. Every trace of the trouble has disappeared and I can now eat and enjoy my meals as well as anyone."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The final test of personality consists in exchanging a check for gas in a strange town.

Road.—I wonder why no one ever goes plunking in the winter time.

Roadster.—There are no ants!

Her Heart Palpitated She Had Fainting Spells

Mrs. J. Wilson, Port George, N.S., writes: "I suffered from palpitation of the heart and fainting spells, and, at times, I could not be left alone. I was so nervous."

My trouble was caused from overwork and worry, having been left alone with a large family. I had tried everything, without any result, but I know, to my cost, that I would have been a nervous wreck but for your wonderful

These Pills are for sale at all druggists and dealers; put up only by The T. Milburn Co., Limited, Toronto, Ont.

OUR CROSSWORD PUZZLE

- Horizontal
- 1—A relish of vegetables or fruit (p.).
 - 2—The mouth of a volcano.

 - 17—Covered with a case.
 - 18—Borders.
 - 19—Girl's name.
 - 20—An expression of inquiry or slight surprise.

Gopher Poisons

By V. W. Jackson, Professor of Biology, Manitoba Agricultural College.

All gopher poisons contain strychnine, they differ only in amount and mixture. The government standard is 12 grains of strychnine sulphate per fluid ounce or 2.5 per cent, or about 42 grams of strychnine to a gallon of water to treat as much grain as will soak it up. Strychnine has two forms—the natural alkaloid and the sulphate crystals, which are more soluble but less poisonous, so that it takes 5 ounces of the sulphate to be equal to 4 ounces of the alkaloid—so the sulphate is more commonly used because cheaper and more soluble. But gopher poison must be made attractive and alluring with sweetness and aroma.

The North Dakota mixture contains glycerine, saccharin, molasses and baking soda. The Canada mixture, in turn depends upon vinegar for its flavor and aroma. Other mixtures use linseed oil for flavor and aroma—all good in their way, all effective in proportion to the strychnine present.

The North Dakota mixture is the most popular homemade one, and is made as follows: for quarter-section, section, or municipality.

For 1/4 Section, Section Municipal, 20 qts. oats 3 bus. or 300 bus. 100 quarts

1 oz. strychnine 5 ozs. 32 lbs. 1 oz. baking soda 5 ozs. 32 lbs. 1 oz. starch 5 ozs. 32 lbs. 1 pt. molasses 1 1/2 pts. 16 gal. 1 lb. glycerine 3/4 ozs. 32 lbs. 1/2 oz. saccharin 1/2 oz. 62 1/2 lbs. Labor 30 mins. 30 mins. 60 hrs.

Probably cost \$2 for 1,200 gopher holes or average quarter-section. Approximately \$2.00 for 6,000 gopher holes, average section. 600,000 gopher holes, 100 sections (half municipality), \$500.00.

Make a pint of hot starch paste first and slowly sift in the strychnine and soda powder and stir so it will not boil over. Then add the molasses, glycerine and saccharin and stir well. Then pour the warm mixture over 20 quarts of clean oats. Costa about 2c for 10 gopher holes and sarge bushels of grain and a bumpy field, if done in time (April and May).

"Come and dine with me tomorrow evening," said man.

"Afraid I can't; I'm going to see Hamlet."

"Never mind, bring him along too."

Minard's Liniment for burns

Answer to Last Week's Puzzle

Life On Mars Quite Probable

Prof. C. A. Chant, of the University of Toronto, told the convention of the Ontario Educational Association there that the existence of life on the planet Mars was more than a possibility, according to conclusions drawn from observations made in 1924 when the planet approached close to the earth. Prof. Chant described the work of the astronomers who observed Mars during that period.

Mrs. J. W. Thrush

—The Shaw Studio

Hamilton, Ont.—"For over three years I suffered with severe nervous headaches. When I would get these spells I would have to give up and go to bed. They would occur about every two weeks. I tried everything I heard of but got no relief until I began taking Dr. Pierce's Favorite Prescription and the 'Pleasant Pellets.' By the time I had taken two bottles I found a wonderful improvement, and four bottles overcame the trouble. I have never since suffered from headaches of any sort."—Mrs. J. W. Thrush, 41 Margaret St.

Go to your neighborhood drug store at once and obtain this Prescription in tablets or liquid, or send 10 cents to Dr. Pierce, Laboratory, 1030 Broadway, N.Y., for trial package.

NO PEACE UNTIL STRIKE ORDER IS WITHDRAWN

London.—The general strike is a challenge to parliament and is the road to anarchy and ruin," the British prime minister, Stanley Baldwin, thus characterized the vast Labor movement in support of the miners' strike, in a message printed by the official government paper, The British Gazette.

He calls upon all good citizens to stand behind the government "to preserve the liberties and privileges of the people of the British Isles."

In the House of Commons the prime minister made the unequivocal declaration that the strike order must be withdrawn before the government would resume negotiations for industrial peace.

At the same session of the commons, Sir William Joynson-Hicks, the home secretary, intimated that troops would be employed, if necessary, to maintain services of vital importance.

In setting forth the situation to the press, the government's spokesman at the admiralty declared that the nation was meeting the crisis quietly and calmly, with food and fuel supplies guaranteed for many weeks; an official of the Trades Union Congress at Euston Square, Labor headquarters, announced that the railway strike was the most complete in the history of Great Britain, and that the striking men and their women-folk were standing solidly together for the cause of Labor.

Requisition Cafe For Amusement Of Soldiers

Magnificent Restaurant Now Used By British Army On Rhine

London.—The "Walhalla" at Wiesbaden, one of the most luxurious restaurants in Germany, has been taken over by the Navy, Army and Air Force Institute for the benefit of the army of occupation on the Rhine.

A magnificent restaurant on the ground floor, where wealthy Germans once ate expensive meals, is now used only by British soldiers and their wives, and a large theatre on the first floor has been converted into a moving picture theatre and lecture hall.

"We wanted to take over this building because the facilities for the amusement of the troops in Wiesbaden were limited," said E. H. Cherry, assistant general manager of the N.A.A.F.I. "There was great delay on account of financial reasons, but now the place has been requisitioned by the war department."

"There has been considerable opposition in Germany, however, and many newspapers have declared that we have violated the spirit of Locarno."

Vessels Liable To Customs

Those Delivering Canadian Winter Storage Cargoes At U. S. Ports Come Under Tariff

Ottawa.—There is apparently some misapprehension, it was stated here as to the position of the United States in delivering Canadian winter storage cargoes at United States ports. These vessels are liable to a 25 per cent. customs duty not by virtue of an order-in-council, but under the customs tariff which can only be amended by act of parliament. Under a provision of the Canada Shipping Act, however, the government may, by order-in-council, permit foreign vessels loaded with winter storage grain to discharge at a Canadian port in the spring. Such an order has been passed for several years.

Embargo Lifted

London.—After holding up the appearance of the British Worker, the labor paper issued in answer to the government's British Gazette, police permitted its appearance from the office of the Daily Herald, the regular labor newspaper. The embargo was lifted after a sample copy had been inspected.

It is just fifty years since John D. Rockefeller combined all his companies into one, and called it the Standard Oil Company.

W. N. U. 1628

Is Standing Firm

Premier Baldwin of Great Britain, who enjoins the nation to keep steady in the present crisis.

Slaves In Burma Freed By Britain

Deputy Commissioner Barnard Secures Liberation Of Over Three Thousand, Allahabad, British India. After several months spent in the wilds of Burma, stamping out slave trading and negotiating with the Nagas for the abolition of human sacrifice, Deputy Commissioner J. T. O. Barnard, of the Burma frontier service, has arrived in Calcutta.

Barnard tells a most interesting story of his activities. The number of slaves set free at a cost of 19,000 rupees was 3,445, which did not come up to the exaggerated expectations which had been entertained.

There were no limitations, however, to the gratitude and unimaginable joy of the Kachins, who were emancipated through the act of the "great white chief," Sir Harcourt Butler, governor of Burma.

In an area of 2,000 square miles are 35,000 people hankering after human sacrifices. Evidence was found of this practice and also of the rare, taken to prepare the victims. Usually he is placed in a kind of stock pen and fed and watered like an animal for two months before being sacrificed.

Illicit Gold Traffic Alarming Mine Owners

Mines In South Africa Looted Of Large Amounts

Capetown.—Some remarkable revelations regarding the extent of illicit gold traffic have been made in South Africa recently. The conspiracy is centred in the heart of the gold mining industry in Johannesburg, but its ramifications extend to England and India. It is estimated that some £250,000 worth of gold is dealt with illicitly each year.

The gold is, in the first place, eluded from the many mines that lie alongside the Witwatersrand. It is not an easy matter to steal gold from a gold mine. Like the diamond industry, there is a constant supervision. Yet gold continues to disappear from the mines and the extent of illicit gold buying is shown by the number of convictions in the Johannesburg courts each year.

The mining authorities, aware of these constant leakages of gold, are puzzled to account for them.

Regina C.P.R. Hotel Approved Montreal.—The board of Regina is to have a new \$1,500,000 hotel. At the fifth annual meeting of Canadian Pacific Railway shareholders here, approval was given to an agreement between the Regina civic authorities and the company for the erection of the structure.

Plans Super-Dirigible Pasadena, Calif.—Thomas B. Slato, noted inventor of fuel improvements for aircraft, announced here that he had signed a contract with the government to construct a super-dirigible capable of making a non-stop flight to the North Pole and return in seven days.

Ship Canadian Cattle Toronto.—Cattle boats are leaving Canada for England with regularity, unaffected by the British general strike and the Canadian export trade in livestock generally is not expected to be affected, in the opinion of H. P. Kennedy, large shipper of livestock.

H. B. RAILROAD QUESTION COMES BEFORE SENATE

Ottawa.—When the interim supply bill of one twelfth was presented in the senate by Hon. Raoul Dandurand, Senator W. B. Ross, opposition leader, drew attention to the item of \$3,000,000 for the Hudson's Bay Railway in the estimates. He said the senate had not been informed what use was to be made of this money. Whether the Hudson's Bay Railway was to be part of the Canadian National Railway or an independent system operated by the government. He would also like to know where this \$3,000,000 was to be expended and how.

Senator Dandurand said there were 90 miles of road to be completed. The Hudson's Bay Railway was not, at present, a part of the Canadian National system, but was administered and operated by the railways department. The minister of railways had asked the Canadian National system to supervise the completion of the work. The interim supply voted would be used for maintenance and repairs on that portion of the road on which rails had been laid. In voting money for the Hudson's Bay Railway the government was carrying out the policy of all governments of recent years. He expected the work would be proceeded with diligently until completed.

Sane Government Or Anarchy

Daily Mail Says British People Will Not Submit to Odious Tyranny

London.—The Daily Mail says there are now two governments in Great Britain. One the law government representing 40,000,000 persons, and the other "an unconstitutional, revolutionary government representing 5,000,000 trade unionists."

The paper declares that one of these governments must go. "We are not going to see J. H. Thomas and Ramsay MacDonald imitating the work of Lenin and Trotsky here," the Daily Mail says of the Labor leaders. "Nor will the British people—which is entirely different from the pathetic, submissive 'roule of Russia'—submit to such an odious tyranny."

Alberta Air Patrol Ottawa.—G. C. Coote, Progressive, McCord, asked the minister of the interior in the house if the air force forest patrol in Alberta was to be carried out this year. Hon. Charles Stewart replied that arrangement would be made and the service carried on would be continued this year.

The Sky Line of New York

As seen from the deck of the Canadian Pacific flagship Empress of Scotland after she had docked there April 10, completing an 129-day voyage around the world, commencing December 3rd. Many unique spectacles were witnessed by passengers including an eclipse of the sun at Bellara which seemed over a million Hindus into the sacred waters of the Ganges in the hope of avoiding the destruction of the world; and a human sacrifice when a Hindu youth committed suicide on the altar of the goddess Kali in her temple at Calcutta. The Sultan of Johore, a Malay Peninsula State, introduced some of the lady passengers to his harem. Seven honeymooners took the trip and their example was an encouragement that 27 couples had become engaged to be married at the termination of the world cruise.

Figures In British Strike

A. J. Cook, General Secretary of the Miners' Union, who has taken a prominent part in the strike movement.

Plan Most Northerly Mounted Police Post

Efforts Being Made to Place One Within Ten Degrees of Pole

Toronto.—A determined effort is to be made to land three Royal Canadian Mounted Policemen on the Bach Peninsula, which is latitude 78, only 10 degrees from the North Pole, according to George P. Mackenzie, officer in charge of Arctic expedition this year. If successful this will be the most northerly R.C.M.P. post, and will be the farthest north which Canada has ever extended her administrative empire.

If Bach Peninsula can be reached these three mounted policemen will represent all branches of the Dominion Government. They will open and conduct a post office, act as mining recorders, if necessary, will act as game wardens and will take applications for naturalization if any are made.

Death Of Forestry Expert

A. H. Mitchell Was Well Known For Work Done In Western Canada

Lethbridge.—A special to the Herald from Macleod says that A. H. Mitchell, aged 68, well-known forestry expert, died at Penitence, B.C., following three months illness from kidney trouble. Mr. Mitchell, who came to Macleod from Scotland in 1898, was widely known over the prairies, having travelled with the Dominion forestry branch tree planting car for a number of years. He was a true enthusiast. His father was chief forester to Lord Rosebery.

BRITISH CABINET URGED TO MAKE CONCESSIONS

London.—In the House of Commons, former premier Lloyd George joined the Laborites in deploring the precipitancy shown in breaking off negotiations, which he characterized as a grave error. Ramsay MacDonald begged the cabinet not to remain adamant, but to make some concession in order to get the government and the Trades Union Congress around the conference table.

For the first time the debate brought out how slight a touch was needed to sever the thread of negotiations and send the sword of a general strike crashing on the heads of the British people. It was the "overt act" of a few printers in the Daily Mail plant, who, acting without authority of the unions' representatives, disagreed with an editorial and stopped the machinery of the paper, preventing its publication.

Ramsay MacDonald, in a further plea for bringing the government and the Trades Union Committee together, said that after receiving the government's final communication the Trades Union Congress and miners went at committee from their room to the prime minister's room to discuss the situation. When the committee arrived, Mr. MacDonald declared dramatically, they found the door locked and the room in darkness.

In consequence of this disclosure, members of the House of Commons repeatedly demanded to know the terms of the formula mentioned, and whether the miners had accepted it since the breakdown, but information on this point was not forthcoming.

The Laborite, James Maxton, Glasgow, stated that the strike had been precipitated because the dignity of a great newspaper proprietor should be injured. It was disgraceful that the whole nation's services should be stopped and that millions should suffer because of this.

Suggests National Celebration

Senate Urges Fitting Recognition of Sixtieth Anniversary of Confederation

Ottawa.—The senate adopted a resolution that "it is expedient that preparations be made for the celebration of the sixtieth anniversary of the Confederation of the Provinces of Canada."

Senator Lewis, who proposed the resolution, believed the celebration should be made national, and should not be confined solely to Dominion Day.

The anniversary celebration, he declared, should be made a feature of all celebrations of every character throughout the year.

Senator Raoul Dandurand, government leader, thought that advantage should be taken of the sixtieth anniversary of confederation to bring before our people the matter of our national growth and achievements.

Monument For Great Explorer

Douglas Fir Trees Planted Near Captain Vancouver's Grave In England

London.—In the old parish churchyard of Rushmore, Surrey, the Hon. P. A. Pauline, agent-general for British Columbia, assisted by J. S. Corbett, secretary of the Empire Forestry Association, has planted near Captain Vancouver's grave a number of young Douglas fir trees grown in Kew Gardens from seeds sent by the natives of British Columbia, as a lasting memorial to the great explorer.

Table Came From England Berlin.—The English table upon which Emperor William signed the mobilization order, Aug. 1, for the commencement of the world war, is now on display to visitors in the imperial castle, here.

The table, which came from England many years before as a gift, was made out of boards from Admiral Nelson's flagship.

Yukon Free of Ice Dawson, Y.T.—The ice has melted out of the Yukon River at Dawson and steamers are expected from lower Lehigh shortly.

An Artist's View of the Rockies

Cathedral Mountain From the Yoho Valley.

Leonard Richmond, R.B.A., R.O.I., among the well known British artists is among the latest to succumb to the lure of singing the praises of the Canadian Pacific Rockies. In Apollo, a magazine of the arts, Mr. Richmond writes of the Rocky Mountains as one of the most magnificent sights of the world.

Towards the end of March 1925, the artist made his first journey into the heart of Canada. He writes, "As the train advanced from Calgary, the 'Foothills' of the Rockies gradually emerged in view, suggesting the appearance of a body-guard, or sentinels, guarding the sterner mountains beyond."

"It is not expedient or desirable for me to describe in detail the emotional ascending scale that my feelings experienced as the train approached the actual Rockies themselves. It is enough to state that my highest imaginative thoughts had never visualized so much line, relative force and dignity as those austere mountains conveyed that late afternoon in March."

"The general color on that particular afternoon was monotonous in effect. I have not seen any Japanese wood-cut print that equalled the superb draughtsmanship of the finely designed groups of pine trees which were almost black in tint, contrasting sharply against the virgin snow."

"The mountains of Canada suggest

many forms of expression for artists. In that respect they are probably unique. The intellectually endowed modern painter has scope enough to create works of art, based on the innumerable suggestions of dynamic force, grim tragedies of form caused by ancient volcanic eruptions, and occult feelings, too, can be awakened by close contact and communion with the soul of the mountains."

"It is impossible for any artist to sketch more than a fraction of such a vast area of varied subjects. Once the artist is situated right in the mountains there is no occasion to seek for subjects or to walk any distance for desirable views. There is something interesting to paint from any angle."

"Some of the most interesting pictures that I have seen recently of the Rockies are those where the artist has improved in colour and form on the original theme in nature. By this means Nature can be made to look more natural in a picture and the artist's thoughts can be crystallized into positive expression."

Mr. Richmond, who painted a number of beautiful views, states that although Lakes Louise, O'Hara, Moraine, and Emerald are famous in the lake world of Canada, he was intrigued by the smaller sisters, Lake Mirror and Lake Agnes, known as the "Lakes in the Clouds," above Louise.

NATIONAL ARRANGES NEW TOUR TO EUROPE

THE rapidly increasing popularity of personally conducted tours has led passenger officials of the Canadian National Railways to organize an educational and historical tour to Great Britain, Holland, Belgium, Switzerland and France. For the past four years this company has conducted a summer tour from Winnipeg and other western cities to the Pacific coast via Prince Rupert, the trip being made by special train with stop-overs arranged at all points of interest en route. With an especial appeal to teachers and other professional men and women, this tour has met with increased success year after year and numerous requests have been made to the company to arrange similar tours through other districts. Every

year more and more of the travelling public are realizing that the way to get the most out of their trips is to take advantage of these personally conducted specials. Canadian National passenger officials, therefore, have been busy for some months arranging a 43-day personally conducted tour to Europe, to be operated by that company in connection with the Cunard, Anchor-Donaldson line. Special effort has been made to keep the cost as low as possible without lowering the standard of travel. Western Canadian passengers for this tour will leave Winnipeg on July 7 in special cars on the Continental Limited to join the balance of the party at Montreal, whence they will sail on the S.S. Athenia, July 9. The return trip

will be made from Liverpool on the S.S. Aurania, sailing August 13. The photographs above are of a few of the famous spots included in the itinerary of this overseas tour. At the top is St. George's Chapel and Windsor Castle. At the left, the Kersall Garden, Interlaken, and below La Basilique de Montreux, Paris. At the right, is the S.S. Athenia and below Tom Tower, Christ Church College, Oxford. Other stopping places on the trip will be Glasgow, Edinburgh, Leamington, London and Paris, where some free time will be given for shopping and individual sight-seeing. The Hague, Bruges, Antwerp, Brussels, Amsterdam, Maastricht, Versailles, Geneva, Montreux, Interlaken, Meiringen, Lucerne and the bathfields.

Strange, Romantic Love Adventures of the Flapper you know!

Lydia

by H. L. GATES

Copyright 1923 by H. L. GATES

Published by arrangement with First National Pictures, Inc.

THE STORY THUS FAR

Joanna, pretty, flapperish, slip girl is informed by Graydon, her employer, that an unknown man has given her a million dollars to spend. There are no strings to the gift, she is not even to know the name of the benefactor. Overwhelmed by this unexpected wealth, unable to comprehend it, she confronts banker Eggleston to learn only that the story is true—other than that he can tell her nothing. At the bank she meets Brandon, man-about-town, nephew of the banker. He helps her draw her first check and ardently informs her that he intends to make love to her. With ten thousand dollars Joanna leaves the bank and goes to her furriers—a cheap side-street store—to buy a new fur coat.

CHAPTER IV.—(Continued)

"Oh, I see," he breathed. "Excuse me Miss, for thinking you would bother with giving me a date. I might as know you was bait for big fish only. Where to, did you say Miss?"

Joanna stopped her bag. The lines that, some of the boys would have recognized as sure signs of a squall, formed about her lips—the mush, too-red lips.

"Say, you!" she said. "Take a look at your license, it's for driving, and it says nothing about fish. So get along and see if you can steer straight."

The chauffeur was not impressed. "And where to, Miss?" he repeated, still very stiff.

"I'd like to tell you one place—but you can go there when I'm done with you. Meantime just pull up in front of my furrier's, will you?"

He touched his cap and received the address. "My furrier's," proved to be in a neighborhood not frequented by the most fashionable shoppers—in fact, by the most unfashionable ones.

THEY SUFFER NO MORE

Two Women Owe Health to Lydia E. Pinkham's Vegetable Compound

St. Adolphe, Manitoba.—"I was very weak and had great pains during my periods so that I could not sweep the floor. The pains were in the right side and extended to the left and then downwards. It seemed as if the bowels were heavy and upside down. It is for these troubles I took the Vegetable Compound."

I saw about it in a paper and the woman prevailed on me to take it. It has helped me in every way, the pains are less, and I have more appetite. It is a pleasure to recommend Lydia E. Pinkham's Vegetable Compound to other women. L. LA DELORE, St. Adolphe, Manitoba.

Found Great Relief

Toronto, Ont.—"I am at the change of life with hot flashes, dizziness, weakness and nervousness. I had head noises and was short of breath. I was this way about six months when I read about Lydia E. Pinkham's Vegetable Compound in the newspapers. I have taken eight bottles so far and found great relief."—Mrs. R. J. SAIMON, 112 Lawlor Ave., Toronto, Ont.

W. N. U. 1628

mink one, did you say? I'll make it a bargain because you didn't forget old Daddy Cohen. It's straight from Fifth Avenue.

"Never mind the Daddy Cohen stuff," Joanna admonished him. "Trot out the wrap. I've been looking at it for three years, now. I just want to get it out of your window—it's tired on the eyes."

Mr. Cohen was not to be bantered, even about his famous mink wrap, which he kept in his window in the day time and in his safe at night—his one real bit of honest merchandise, and his proudest advertisement. He brought the wrap, with elaborate tenderness, from its window stand. Joanna, her own cloak thrown across the counter, put on the coveted mink with true nonchalance. She found all sorts of fault with it, accused it of being not second, but third hand, and pointed out to Mr. Cohen a score of mythical moth nests. Then she announced quite calmly,

"Just to do you a favor, you old skunkin', I'll take it along. I'm going to give it to my maid."

"Ah, yes!" the installment furrier retorted, with the smile of a trader who has traded well; "Furs for minks, that's the golden rule, my dear!"

Joanna knew the price. It had been displayed with the same pride as had been the coat. In the window, "One Thousand Dollars." And Joanna remarked as she opened her bag, "Worth every cent of half that much."

Mr. Cohen's eyes watered, gleamed and grew wider, than ever when the girl who owed him twelve dollars "back," and fifty odd to come on her last year's wrap, handed him three five hundred dollar bills with the reminder that she could count the change as well as he could.

As she turned to parade out of the store, triumphant in her first conflict with the unpleasant figures of her meager days, Mr. Cohen touched her softly on her shoulder. Reaching his lips close to where her ears nestled under her bobbed brown hair, he whispered:

"Maybe the rich gentleman will buy you another one, soon; maybe an ermine this time. I'll have one for you, cheap—right from Fifth Avenue."

Joanna turned when he said, "What do you mean, rich gentleman?" she demanded, glints of steel emerging from her deep brown eyes.

"Mr. Cohen meek and apologetic, but hallooed still:

"Of course, my dear, I don't know anything about a rich gentleman. But when a pretty girl like you buys one mink coat, she buys an ermine coat next, and then, maybe, it's sables. And that's the way rich gentlemen improve if you handle them right, my dear—they go from mink to sables, quick. I'll have the sable one, too, when the rich gentleman that I don't know anything about and won't ask no questions about is ready!"

Tears, tears of rage, and some more; of fear, dimming the deep brown eyes.

Mr. Cohen went, stumbling a little, to her car. Before the chauffeur's formal stiffness, she shrank. She gave him a number and a street.

"It's where I live," she said. "I've got something to do there, and I guess I'll go and do it now instead of putting it off."

CHAPTER V.

In the Drawing Room Only

While the limousine moved along in the endless procession of its kind, out of the neighborhood of the little fur-

rier whose experience of life in his own field had taught him that "furs for minks" inevitably meant "rich gentlemen," and into the beautiful shopping avenue where the dreams of women find reflection in the store windows, Joanna fought valiantly to assemble her wits and her understanding.

She tried to plan—and couldn't. Her brain, always in tune with events of the moment, things that went on around her, was unaccustomed to the burden of anything that had to do with tomorrow, or any deeper problem than the discovery of some new seat for today. Once John—funny old John, who had loved her for such a long time!—had taken her by the shoulders, swung her around, put his hand under her chin and forced it up so that she had to look up into his face, and had said:

"Will you really marry me, Joanna?"

And she had said: "Sure!" (To be continued)

A HAPPY CHILDHOOD

A MATTER OF HEALTH

Let Baby's Own Tablets Keep Your Children Well

Little children very quickly get out of sorts. By prompt treatment they can usually just as quickly be set right again. Many of their troubles arise in the first place from the stomach or bowels; that is why a good cleansing agent is the thing that is prescribed by the doctor. Formerly castor oil was the means used to bring this about. But Baby's Own Tablets have taken the same work, but without trouble to the parent or discomfort to the little one. Children take Baby's Own Tablets happily because there is no nasty taste and because no griping after-pains follow their use.

As a specific for childhood indigestion, vomiting, constipation, colic, colds, teething pains, etc., there is nothing to equal Baby's Own Tablets. They never do harm and always do good. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

Blessed are the merciful, for they shall obtain mercy. Matt. v. 7.

Teach me to feel another's woes. To hide the fault I see, What mercy I to others show, Thy mercy show to me.

—Alexander Pope.

No one thing does human life more need than a kind consideration of men's faults. Everyone sins; everyone needs forbearance. Their own imperfections should teach men to be merciful. God is merciful because He is perfect. As men grow toward the Divine, they become gentle, forgiving, compassionate. The absence of a merciful spirit is evidence of the want of true holiness. A soul that has really entered into the life of Christ carries in itself a store of nourishment, and a cordial for helpless souls around it.—Henry Ward Beecher.

Requests on the Farm.—Every farmer and stock-raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for all the ills of farm men, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

Rubber Bowls For Flowers

New Invention is Practical and Has Many Advantages

Plant rubber bowls in elastic design and various colors are now on the market for growing flowering bulbs, says Popular Mechanics. The advantages of their use are that they retain their shape, cannot break and will not mark the furniture. Furthermore, since they are soft and unaffected by moisture, they are not likely to cause stains on any surface upon which they may be placed.

Praises this Asthma Remedy. A great relief to the sufferer from Asthma Remedy finds it the only remedy that will give relief, though for the time being, it is not a cure, but a help. Years of needless suffering may be prevented by using this wonderful remedy at the first warning of trouble. Its use is simple, its cost is small, and it can be purchased almost anywhere.

Mr. Banks.—Don't you think my wife paints very nicely?

Miss Milburn.—Charming! It makes her look so much younger, I think.

Minard's Liniment for backache

For Quick Hot Water

Fill an SMP Enamelled Tea Kettle. Set it on the stove. No Kettle will boil water quicker. That means convenience, time saved, too. All SMP Enamelled utensils are very fast coming to the boil and in their job of cooking. Not only quicker to cook with, but easier, more quickly cleaned after. This best way you look at it. Think this over.

Stony Plain and District.

This is ASCENSION DAY.

Inga Councillors held a meeting in Stony last week. Mr Day, of the Highway department, was present.

Inspectors A. McNally and Fife of the Dept. of Education, were in town on Tuesday.

"Just and the Unjust" is the feature for the moving picture show in Wudel's hall next Monday night, with a good comic in addition.

Mr Meredith made a business trip to Wabamun Tuesday.

While driving his motor car near Edmonton on Sunday Mr Emil Baron ran over a boy named Hy Schonberger, the boy having run from behind a standing car directly in the path of the auto. The boy was taken to the hospital, where he died of his injuries.

Herman Loeblich pitched a game in the City on Sunday for the Selkicks.

St. Matthew School No. 2 played Stony Public on Fair Grounds on Friday last. Batteries—St. Mats, W. Miller p. W. Bredt & G. Gitzel c. Public, A. Lutz & F. Maroon p. Geo & Louis c. Score: Public 9, St. Mats 7.

Walther League will play the Grove a ball game in Stony on the 16th.

Val Mohr's ball aggregation will meet Stony players in Stony the afternoon of May 23d.

Mrs N. Gagne, of Spruce Grove district, who was taken to an Edmonton hospital last week, died in that institution on Monday night, May 10.

There will be a big shoot at the Comet Ranges the morning of Monday May 24 (Victoria Day) under the auspices of the Rifle Club, with good prizes for the successful ones.

The rifles for the Rifle Club are expected to arrive from Calgary this week.

Mr O Nettie last week purchased the Sady farm at Glory Hills, next the Sam Kettle ranch.

The opening of the new hall at Heatherdown takes place tomorrow (Friday) when a play is being put on by the dramatic club.

DANCE!
 HOLBORN HALL,
 MONDAY MAY 24
 3-PIECE ORCHESTRA

Spruce Grove Notes.

Interest is still centred on the building of the new Community Hall, and another meeting of those interested will be held in a short time, when tenders will be opened and construction proceeded with. The meeting will be on the call of the new president, Mr David Bell. The other officers recently elected are: Vice-presidents, Jac Brox, J. D. Miller, W. J. Johnston, Jac Schoep; with W. Mayer as treasurer, and Mr Jas Elder as secretary.

Agent Bell has sold a Rumely oil-pull 15-25 tractor to Fuhr Brothers. A Fordson was traded in.

There were several accidents on Sunday last, at the bad hole on the Baseline east of town.

Mr John Metcalf has been appointed weed inspector for Spruce Grove district by the Municipal Council.

Albert Loeblich has shipped his sawing outfit up to Styal, where a season's sawing awaits him.

Mrs Rosenthal, one of the enterprising farmers of Acheson district, has 100 acres cleared and ready for the "breakers."

Mr W. McDonald, formerly of the Sand Hills, has opened a store at Acheson station.

The much-touted big ball game between the Grove and Golden Spike started on Sunday last at the Spike, but did not proceed to the legal limit, owing to disputes over decisions given by the umpire, some of which are said to have been rather "raw." The final showdown occurred in the 5th inning, when the Grove players and their backers decided they had had enough. The score stood: Spike 6, Grove 4. That fifty pitcher from Stony, Val Mohr, was in the box for the Spikers.

LOST—End gate from a truck, painted red, return to L. Zilliox, Phone 33. 01

STRAYED from Edmonton, Beach Park, a team of Bay Mares, wt. about 1100 lbs.; last seen Sunday May 9 at 7 a. m. Please phone Edmonton Beach Park Station. 01

160-acre Farm For Sale Cheap

Very best soil, 1 mile to school, level as can be, 120 acres under cultivation, 7 miles to Stony on good road, very good location, fair buildings; price \$42 an acre; payments arranged. See O Hoffman as soon as possible, as it won't be long on the market. 01

May—
 14—Theatricals at new hall at Heatherdown.
 15—Clean-up Day in Stony.
 17—Movie Pictures, at Wudel's Hall.
 21—Concert in Wudel's Hall by students of Concordia College.
 22—Meeting of Stony Plain U. F. A. Local.
 24—Victoria Day, public holiday.
 24—Shooting for prizes, Comet Ranges.
 24—Dance in Rosenthal Hall.
 24—Dance in Holborn Hall.
 26—Women's Institute Convention in Calgary.
 29—Football Club's dance at Wudel's Hall.

Fifth Annual Tour to the Pacific Coast.

Special Train Leaving Winnipeg, July 5, via Canadian National Railways. Entertainment Provided at Various Points of Interest en Route.

Personally Conducted.

Following the close of school for the summer holidays the Canadian National Railways will again operate its popular "personally conducted" tour to the Pacific Coast. This will be the fifth of such tours.

This mode of travel has many advantages. In the first place it is planned with a view to including in the itinerary the most interesting points, which, with the other arrangements that are made, obviates the necessity of the passenger worrying about connections, sleeping car accommodation, meals, and entertainment en route. This is all done in advance by experts, leaving the passenger free to enjoy to the full the scenery and attractions attendant to such tours.

The tour this year will commence at Winnipeg, from which point a special train of modern sleeping car (equipment, dining car and radio observation car will leave July 5. After stopping at various points of interest, the train will arrive at Prince Rupert on July 10th. At this latter point the party will embark on a paddle steamer for a cruise of 550 miles, through the famous "Inside Passage" to Vancouver. While the tour terminates at Vancouver, those who desire to make a trip to Victoria may have their tickets read "Victoria" as their destination without any additional cost.

The local agent of the Canadian National Railways will be pleased to give you full particulars of this tour.

THE TOWN OF STONY ALAIN.

ASSESSMENT ROLL 1926.

NOTICE is hereby given that the Assessment Roll of the Town of Stony Plain for the year 1926 has been prepared and is now open to inspection at the office of the Secretary-Treasurer of the Town from 10 o'clock in the forenoon to 4 o'clock in the afternoon on every day which is not a public holiday except Saturday (and on that day from 10 o'clock in the morning to 12 o'clock noon), and that any ratepayer who desires to object to the Assessment of himself or of any other person must with in 30 days after the date of this Notice lodge his complaint in writing at my office.

Dated this 1st day of May, 1926.
